THE DOOR IS PULLED CLOSED – 3 LATCHES FOR PERFECT GASKET COMPRESSION

Three latches are triggered and ensure immediately permanent and evenly high gasket compression. The door closes absolutely tightly over the entire door height, leaving draughts and moisture outside and the warmth stays inside.

THE CLOSING MECHANISM IS TRIGGERED

The main latch automatically triggers the locking mechanism as soon as the door enters the lock. In addition, a magnetic trigger monitors the correct closing - these are the two criteria for a secure locking. Two hooks and, this is unique, the locking latch also automatically trigger. The door is triple-locked, without a key.

SECURE LOCKING

Simply pull closed and it automatically locks - all without a key. Thus, no-one can get it, but everyone can get out. The door only has to be locked to prevent children or pets inadvertently going outside. A single key turn is enough.

WHO WE ARE AND WHAT WE DO

Eticom LTD was founded in 1991 in Petrich - the crossroad town between Bulgaria, Macedonia, and Greece. Ever since then, we have been one of the market leaders manufacturing PVC and Aluminum windows, doors, and glazing units. The focus has always been on the quality of our products, the effectiveness of the manufacturing process, and the satisfaction of our customers. Each of our products is characterized with excellent insulation properties, seamless operation, and long life of exploitation.

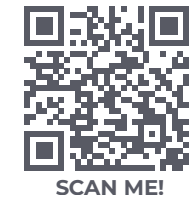

We are mostly export oriented company. About 80% of our products are exported to Europe - Belgium, Greece, Germany, France, Italy, Spain, Netherlands and others. The company possesses all necessary certificates for the markets in which it operates. Our products are tested in one of the best institutes in Germany and Italy. Our suppliers of raw materials, machines, and software are the world's leaders in their field - Roto, Salamander/Brugmann, Gealan, Saint Gobain, Hoppe, Urban, Klaes, Schuccio, and Reyners. We have a modern manufacturing facility, equipped with technologically advanced machines with total area of over 10 500 square meters.

The advanced manufacturing technologies and the high quality products accompanied with customer-centric service helped us being permanently present on the European market. Our partners can rely on fair, upright, long-term cooperation with Eticom. The benefits from working with Eticom are the tailor-fit solutions we offer, personal relationship, easy and polite communication with the professional team of the company.
